fuel: gas

honda

transmission: manual

this was built in 2004 , I took it to Sturgis had a great time , since then it has been neglected , needs to be refurbished , I have robbed some of the parts off of it for another project but it still has a lot of nice stuff , Arlen Ness rocket tank, Invader wheels , Frenched taillights , I think its a Santee frame but not sure, a great start if you want a old school chopper , personal plate not included ,front fork is gone
